## Procurement and use of your e-book inventory

### LICENSE TYPES

- ▶ **A-license** (organizations)
  - Serial, non-parallel use of e-books.
  - Once the adjustable rental limit has expired, the work can be borrowed again.
  - Multiple licenses are possible for frequent use of an e-book.
  
- ▶ **B-license** (universities)
  - Parallel use of e-books.

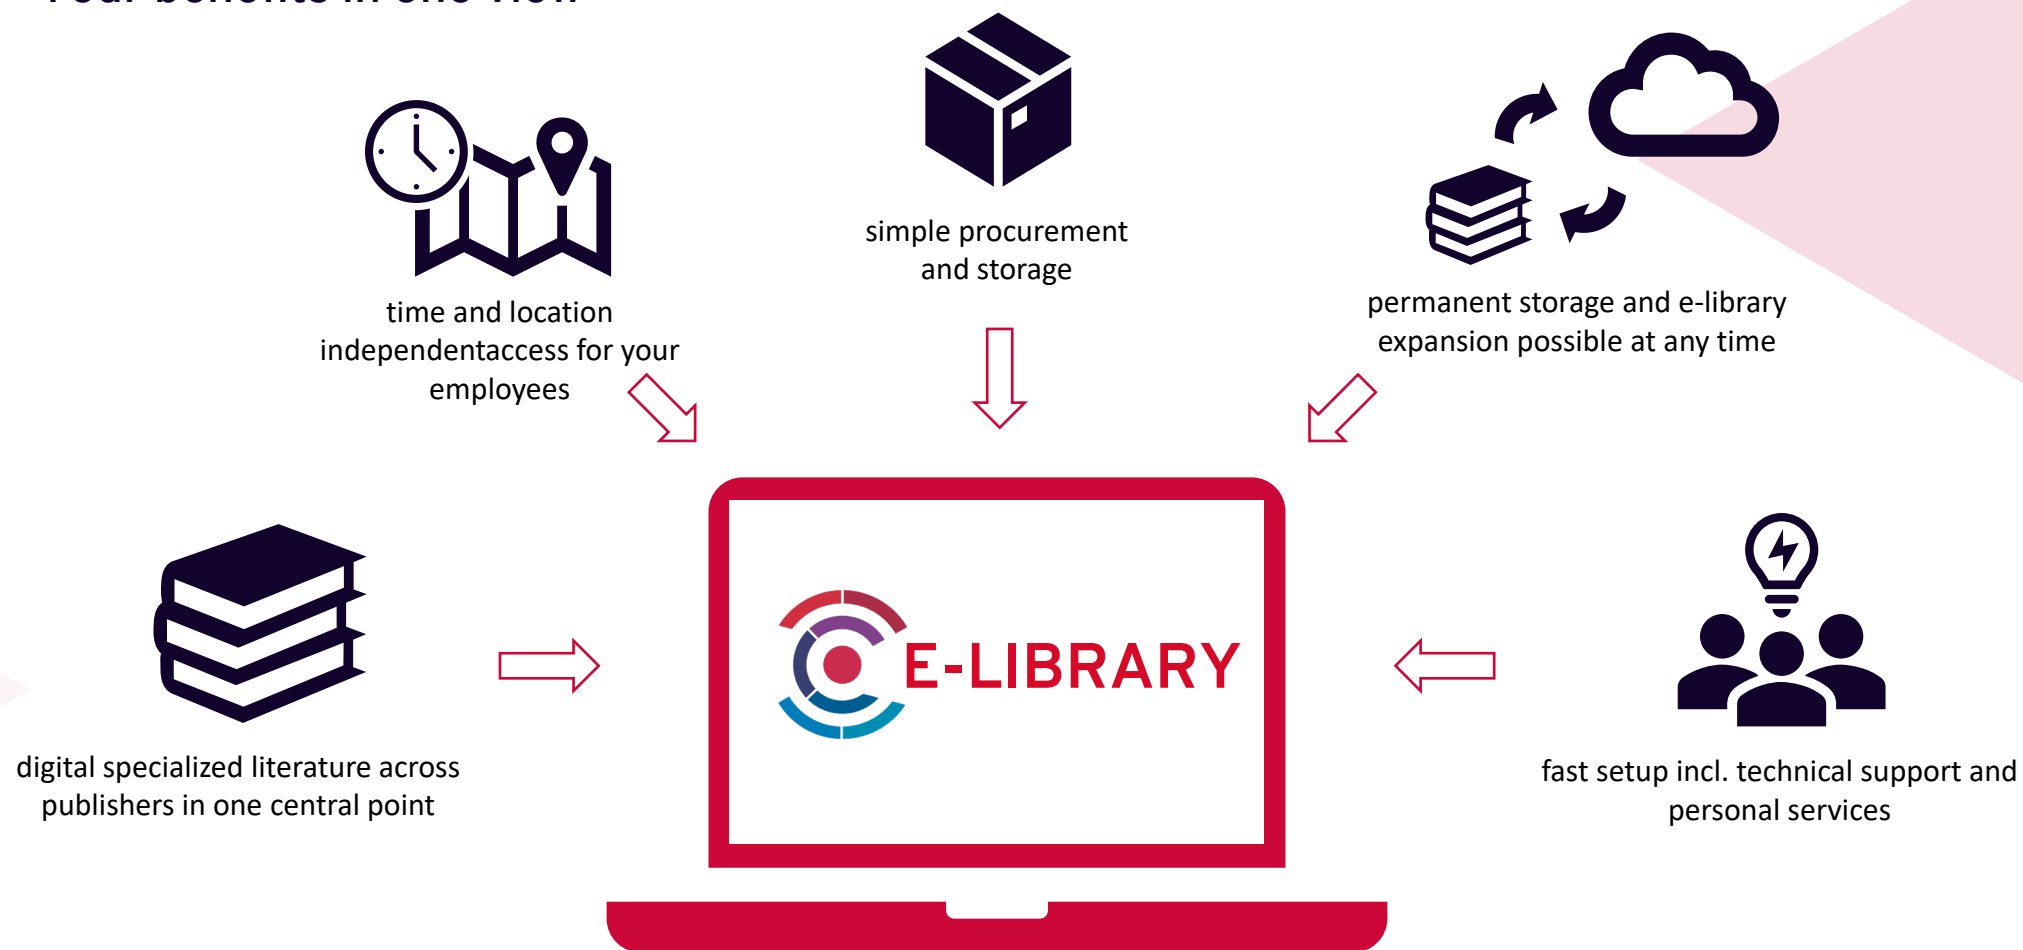

### PROCUREMENT MODELS

- ▶ **List of literature**
  - Basic collection is ordered and integrated into your e-Library at the beginning of the term.
  - Inventory adjustment according to user numbers possible at any time.
  - ⇒ **Complete control over titles / costs and payment of licenses at the beginning of the term**
  
- ▶ **Demand-Driven Acquisition**  
(acquisition model controlled by requirements)
  - At the start of the term, integration of all titles in the relevant subject area into your e-Library.
  - Acquisition takes place only after retrieval of the e-books.
  - ⇒ **Complete freedom of choice for users and payment of licenses at the end of each month**

# INTRANET SOLUTION

## E-books on your company's server

### RECOMMENDATION

- ▶ You need digital professional literature and have a company intranet or document management system.
- ▶ You want to make specialist titles available in a simple and accessible way for everyday work.
- ▶ You don't want to use an external platform.

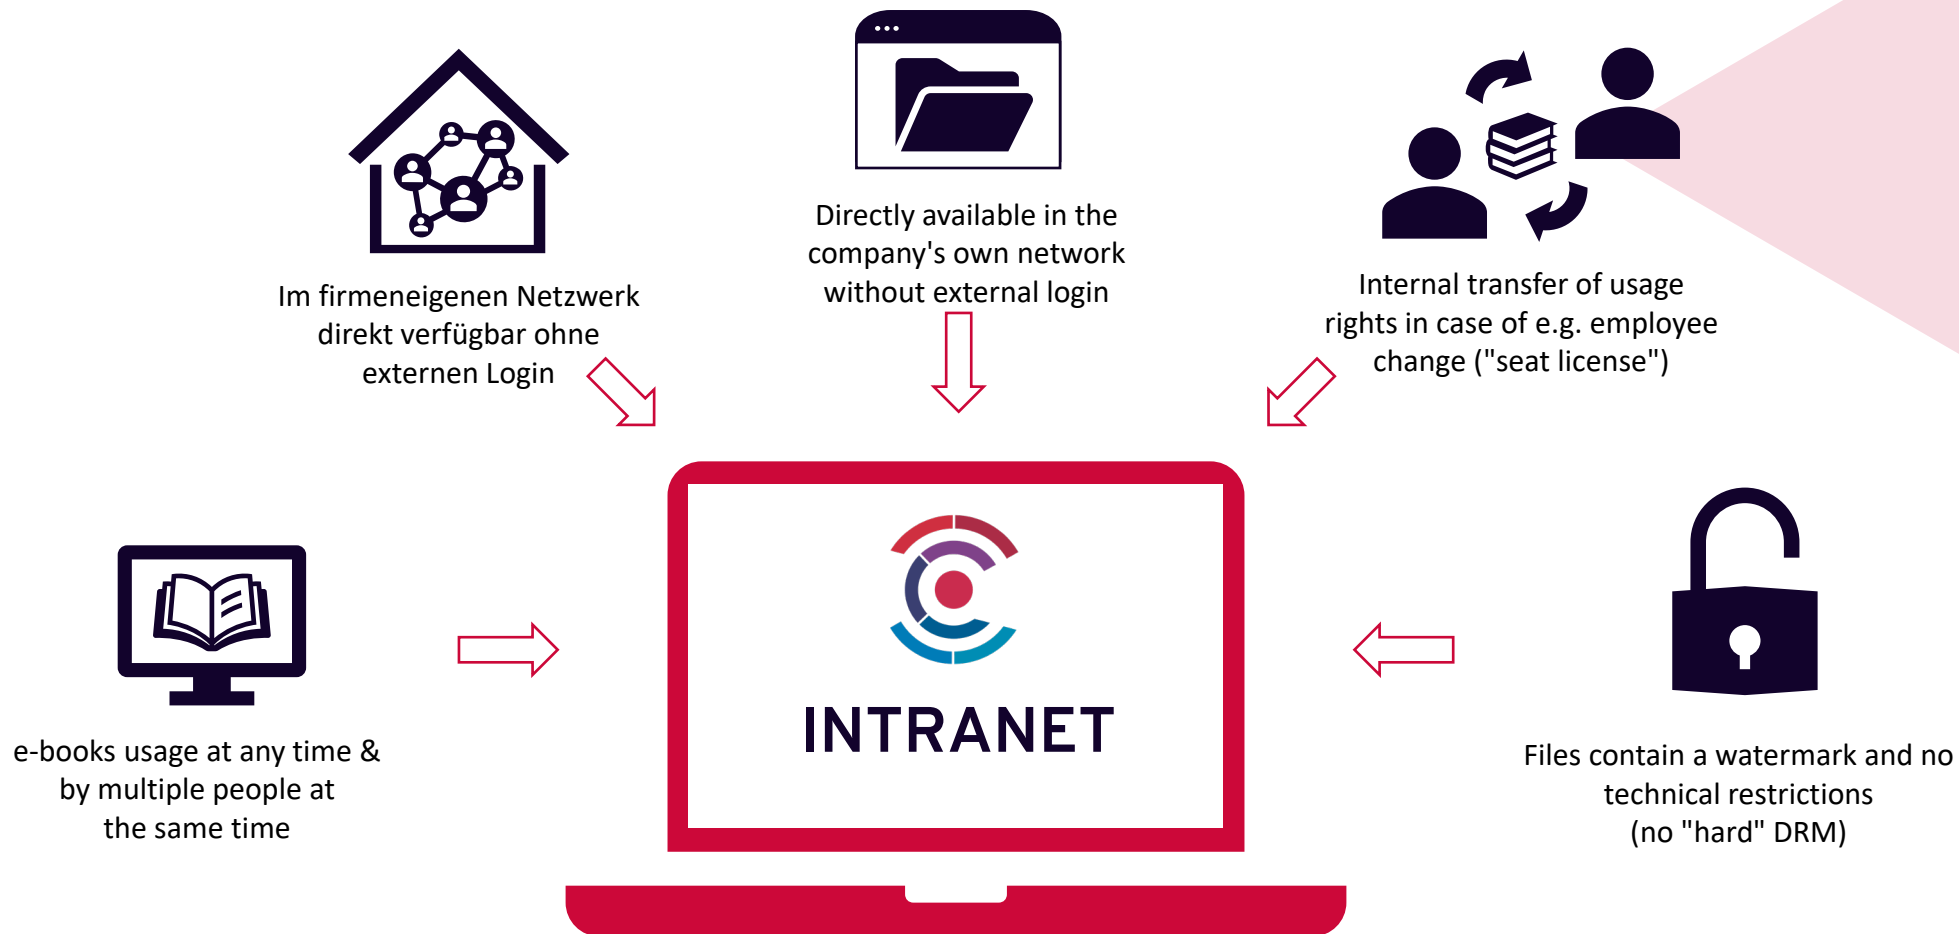

### ORDER

- ▶ Order desired titles as intranet licenses (price varies according to number of users) and sign corresponding user agreements.
- ▶ You will receive the data package from us.
- ▶ E-books can now be made available on your intranet and access granted to the desired group of users.
- ▶ Usage rights can be transferred in the event of a change of employee, for example ("seat license").
